DUCTLESS

SINGLE- AND MULTI-ZONE DUCTLESS
HEATING AND COOLING SYSTEMS
FOR HOMEOWNERS

EFFICIENT COMFORT,
RIGHT WHERE IT'S NEEDED.

**THE RIGHT CHOICE, RIGHT NOW,
FOR ENERGY-EFFICIENT COMFORT
IN EVERY ROOM.**

Have an add-on room where there's no ductwork?

Or a room that's hot in the summer and cold in the winter?

Ducane™ ductless heating and cooling systems are exactly the right answer for single or multiple rooms. With a Ducane ductless system, you can solve heating and cooling problems efficiently and effectively, while also enjoying year-round energy savings. And because it operates quietly and blends in with the room, you won't even know it's there.

EVERYTHING YOU NEED IN A SYSTEM AND MORE.

Ducane ductless systems offer you more than just heating and cooling. They offer quality, value and peace of mind, with great features and smart designs that squeeze more efficiency out of every energy dollar you spend.

Versatile comfort that adapts to your needs.

Ducane ductless systems give you the flexibility to heat or cool one zone or multiple zones in your home. With a multi-zone system, one outdoor unit can work with up to five indoor modules. Each indoor module comes with its own control, so you can set your home office to a different temperature than your sunroom.

Year-round efficiency and energy savings.

Ducane ductless systems keep you comfortable, while delivering money-saving efficiency.

- Single-zone systems with efficiency ratings of up to 24.50 SEER, up to 15.00 EER, up to 11.50 HSPF
- Multi-zone systems with efficiency ratings of up to 22.50 SEER, up to 12.50 EER, up to 10.30 HSPF
- ENERGY STAR® certified
- May be eligible for money-saving rebates

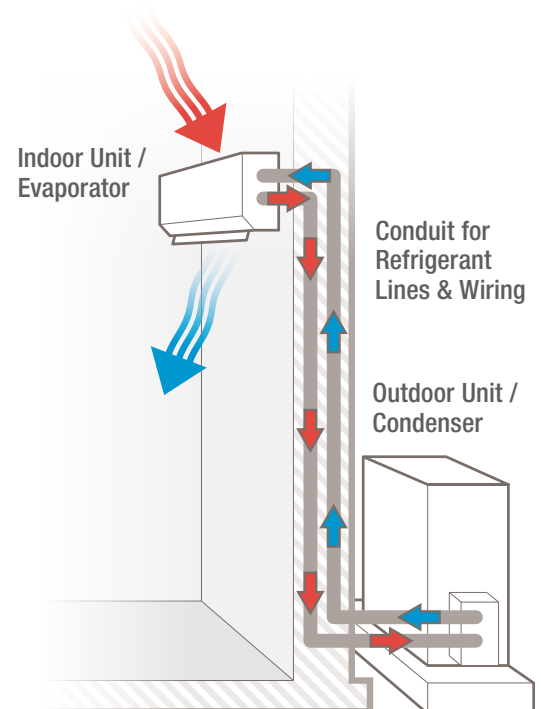

Designed to make life more comfortable.

Ductless systems are great for all kinds of residential applications, including:

- Sunrooms
- Garages
- Workshops/sheds
- Master bedrooms
- Finished attics
- Finished basements
- Home additions

Installation that's simple and secure.

Designed for easy installation, ductless systems connect through a small opening in your wall. This allows the system to move heat out of your home quickly and efficiently, while using energy wisely. Ducane ductless systems blend in with your home environment, operate with minimal noise, and, unlike window units, don't leave you vulnerable to insects, weather elements and theft.

RELIABLE, EFFICIENT AND ENERGY-SAVING, DUCANE™ DUCTLESS SYSTEMS ARE THE RIGHT CHOICE, RIGHT NOW.

- Up to 24.50 SEER/11.50 HSPF efficiency can deliver significant energy savings and may qualify for rebates
- 5-year coverage on parts and 7-year coverage on the compressor for additional peace of mind*
- ENERGY STAR® certified
- Available in single- and multi-zone systems
- Wall-mount, ceiling cassette and concealed indoor unit options offer installation flexibility
- Inverter technology delivers smooth, energy-efficient operation
- Produces minimal noise and blends in with surroundings
- Wireless remote included

*Applies to residential applications only. For terms, conditions and exclusions, see full warranty at alliedair.com.

MAKE THE DUCANE DECISION YOU WON'T REGRET.

When you think about everything Ducane delivers, your decision is no decision at all. A versatile and efficient ductless system will give you all the efficiency and reliability you want, right where you want it.

Ducane. It's the right choice. Right now.
